INDEX TO VOLUME 36

PAGE

Alexander, A. A.: Auricular wave (P) of electrocardiogram, clinical observations with especial reference to pulmonic and mitral stenoses 712
Amino-Acids, renal injuries by..... 682
Anemia, acute febrile pleiochromic anemia with hyaline thrombosis of terminal arterioles and capillaries; undescribed disease 89
diameter of red blood cells in differentiation of anemias..... 874
pernicious, relationship between blood volume, total corpuscle content and alkaline reserve in..... 24
value of icterus index in differentiating. 847
value of iron in; experimental study.... 333
Arrhythmia, nature of so-called sino-auricular block..... 788
Ashby, W.: Blood volume; relationship between blood volume, total corpuscle content and alkaline reserve in cases of pernicious anemia 24
Asthma, allergic, nonspecific desensitization therapy in; cosinophilic index as guide to intramuscular injection of venom protein 779
roentgen-ray treatment of spleen in..... 743
Atmospheric conditions, basal metabolism as affected by 382
Auricular Fibrillation, auricles in cases of, intermittent, with fleeting rapidly recurring paroxysms having identical type of auricular behavior 735
quinidin in treatment of 838

Baker, M. L.: Inulin and artichokes in treatment of diabetes..... 126
Bargen, J. A.: Etiology of chronic ulcerative colitis; experimental studies with suggestions for more rational form of treatment 818
Barium chlorid, beneficial effects of, on Adams-Stokes disease 1
Beck, C. S.: Spindle cell sarcoma of heart. 830
Bendove, R. A.: Vital capacity in artificial pneumothorax; mechanism and factors modifying vital capacity, with especial reference to its clinical and prognostic value in collapse therapy..... 94
Blitzsten, E. P. W.: Diabetes; electrocardiographic studies 770
Blood and symptomatic changes following intravenous administration of variety of agents and solutions..... 447
concentration of urine and, in diabetic toxemia 857
effect on paramecia of blood serums, especially from patients with carcinoma.. 762
lipoid partition in, in health and in disease 507
sugar, glycemia as guide in treatment of diabetes mellitus 579
sugar, hyperglycemia; relative blood volumes in diabetes mellitus..... 889
sugar, hypoglycemia, report of case unassociated with insulin administration. 146
pressure, effect of phenobarbital (luminal) on, in arterial hypertension; preliminary report 366
pressure, systolic, in young men; including special study of those with hypertension 151
pressure, vital capacity, respiratory frequency, pulse rate and systolic blood pressure in heart disease..... 628
volume; relationship between blood volume, total corpuscle content and alkaline reserve in cases of pernicious anemia 24

PAGE

Bones, defects of membranous bones, exophthalmos and diabetes insipidus, report of case with necropsy..... 650

Book Reviews:
Clinical Features of Heart Disease. An Interpretation of Mechanics of Diagnosis for Practitioners; L. Crummer.... 592
Jahresbericht über die Gesamte Innere Medizin und Ihre Genzgebriete..... 446
La Sifilide Ignorata e Strana; C. Martelli 445
Lectures on Pathology; L. Aschoff..... 149
Les Vaisseaux Lymphatiques du Coeur Chez l'Homme et Chez Quelques Mammiféres; O. C. Aagaard..... 750
Medicaments et Medications Cardiaques; H. Vaquez 749
Opotherapie Clinique Organotherapie-Formulaire; M. Laemmer..... 897
Opotherapie Endocrinienne; G. Laroche .897
Pathogenie des Calculs Biliaires et Indications Operatoires; T. Rovsing..... 749
Pernicious Anemia and Aplastic Anemia; A. Sheard 445
The Physiology of Exercise; J. H. McCurdy 150
Practical Lectures: Delivered Under the Auspices of the Medical Society of the County of Kings, Brooklyn, New York (1923-1924 series) 292
Precis de Clinique Semiologique; G. Lyon 446
Recovery Record: For Use in Tuberculosis; G. B. Webb and C. T. Ryder.... 292
Tumors of the Spinal Cord; C. A. Elsber 292
Brown, A. L.: Value of icterus index in differentiating anemia 847
Brown, G. E.: Skin capillaries in scleroderma 73
Bulger, H. A.: Concentration of blood and of urine in diabetic toxemia..... 857
Burrows, M. T.: Action of oils in production of tumors; with definition of cause of cancer 293

Cancer, action of oils in production of tumors, with definition of cause of cancer. 293
effect on paramecia of blood serums, especially from patients with carcinoma.. 762
Capillaries, skin, in scleroderma..... 73
Chang, H. C.: Hypoglycemia, report of case unassociated with insulin administration 146
Clarke, N. E.: Quinidin in treatment of auricular fibrillation, established, paroxysmal and transient..... 838
Cohn, A. E.: Beneficial effects of barium chlorid on Adams-Stokes disease..... 1
Colitis, chronic ulcerative, etiology of: experimental studies with suggestions for more rational form of treatment... 818
Crawford, J. H.: Use of urea as diuretic in advanced heart failure..... 530

Daland, G. A.: Effect on paramecia of blood serums, especially from patients with carcinoma 762
De Eds, F.: Blood and symptomatic changes following intravenous administration of variety of agents and solutions..... 447
Dewey, K. W.: Action of paraphenylendiamin 724
Diabetes Insipidus, defects of membranous bones, exophthalmos and diabetes insipidus; report of case with necropsy.. 650

PAGE

Diabetes Mellitus, concentration of blood and of urine in diabetic toxemia..... 857
electrocardiographic studies 770
glycemia as guide in treatment of; practicability of routine examinations of small, effectively preserved specimens of blood drawn by patient..... 579
intarvin in 44
inulin and artichokes in treatment of.. 126
relative blood volumes in; hyperglycemia. 889
Diehl, H. S.: Systolic blood pressures in young men; including special study of those with hypertension..... 151
D'Irsay, S.: Value of clinical cardiodynamic records 62
Dreyer's tubercle antigen; experiments showing failure of antigen to protect guinea-pigs against experimental tuberculosis 121
Dunn, A. D.: Defects of membranous bones, exophthalmos and diabetes insipidus.. 650

Ecklund, A. M.: Effect of phenobarbital (luminal) on blood pressure in arterial hypertension; preliminary report..... 366
Eggerth, A. H.: Dreyer's tubercle antigen; experiments showing failure of antigen to protect guinea-pigs against experimental tuberculosis 121
Electrocardiogram, auricular wave (P) of, clinical observations with especial reference to pulmonic and mitral stenosis. 712
diabetes; electrocardiographic studies... 770
effect of changes in position of heart on Q-R-S complex of..... 614
Enzymes, pancreatic, quantitative determination of 585
Erythrocytes, diameter of, in differentiation of anemias 874
Ets, H. N.: Value of iron in anemia; experimental study 333

Feces, examination, clinical diagnosis and intestinal flora 636
Feinblatt, H. M.: Dreyer's tubercle antigen; experiments showing failure of antigen to protect guinea-pigs against experimental tuberculosis 121
Fishberg, A. M.: Lipemia and reticuloendothelial apparatus 667
Fistulas, congenital intracardiac; their effect on development of heart..... 516
Formaldehyd poisoning; with report of fatal cases 220
Foshay, L.: Hyperglycemia; relative blood volumes in diabetes mellitus..... 889
Foster, N. B.: Renal function in persons having only one kidney..... 884
Foster, W. C.: Acute intestinal obstruction; simple obstruction 31
Frothingham, C.: Auricles in cases of auricular fibrillation 437

Gas poisoning, when do lungs return to normal following exposure to war gases?.. 204
Goiter, exophthalmic, nutritional changes in; effect of Lugol's solution..... 561
Graves, W. W.: Methods of recognizing scapular types in the living..... 51
Greene, C. H.: Diseases of liver; comparative study of certain tests for hepatic function in experimental obstructive jaundice 273
Diseases of liver; comparative study of certain tests for hepatic function in patients with obstructive jaundice..... 418
Diseases of liver; functional tests in carcinoma of liver and biliary tract..... 542
Diseases of liver; survey of tests for hepatic function 248
Greene, J. A.: Nutritional changes in exophthalmic goiter; effect of Lugol's solution 561
Grosh, L. C.: Diameter of red blood cells in differentiation of anemias..... 874

PAGE

Gruber, C. M.: Effect of phenobarbital (luminal) on blood pressure in arterial hypertension; preliminary report..... 366

Hanzlik, P. J.: Blood and symptomatic changes following intravenous administration of variety of agents and solutions 447
Hausler, R. W.: Acute intestinal obstruction; simple obstruction..... 31
Heart block, beneficial effects of barium chlorid on Adams-Stokes disease..... 1
block, nature of so-called sino-auricular block 788
changes in heart rhythm associated with Cheyne-Stokes respiration; displacement of pacemaker to branches of bundle of His 229
congenital intracardiac fistulas; their effect on development of heart..... 516
disease, vital capacity, respiratory frequency, pulse rate and systolic blood pressure in, their importance in classification of patients..... 628
effect of changes in position of, on Q-R-S complex of electrocardiogram..... 614
failure, advanced, use of urea as diuretic in 530
failure, peripheral pulsations in veins in, associated with pulsation of liver and tricuspid regurgitation 593
output of heart per beat in heart disease. 239
spindle cell sarcoma of..... 830
value of clinical cardiodynamic records.. 62
Hollander, E.: Pancreatic function; quantitative determination of pancreatic enzymes 585
Holman, E.: Congenital intracardiac fistulas; their effect on development of heart 516
Huber, H. L.: Antigenic property of pollens 751
Hyperglycemia; Hypoglycemia: See Blood sugar

Icterus: See also Jaundice
value of icterus index in differentiating anemia 847
Injections, intravenous, blood and symptomatic changes following intravenous administration of variety of agents and solutions 447
Intarvin in diabetes..... 44
Intestines, acute intestinal obstruction; simple obstruction 31
flora, clinical diagnosis and..... 636
pathogenicity of Trichomonas intestinalis. 174
Inulin and artichokes in treatment of diabetes 126
Iron, value of, in anemia; experimental study 333

Jaundice, obstructive, experimental, comparative study of certain tests for hepatic function in..... 273
obstructive, comparative study of certain tests for hepatic function in patients with 418
Johnston, C. G.: Action of oils in production of tumors, with definition of cause of cancer 293

Kahn, M.: Intarvin in diabetes..... 44
Karr, W. G.: Lipoid partition in blood in health and in disease..... 507
Keegan, J. J.: Defects of membranous bones, exophthalmos and diabetes insipidus 650
Primary vascular nephritis, or renal periarteritis nodosa 189
Kerr, W. J.: Peripheral pulsations in veins in congestive failure of heart, associated with pulsation of liver and tricuspid regurgitation 593
Kidney, function in persons having only one kidney 884
injuries by amino-acids..... 682

PAGE

Kline, B. S.: Formaldehyd poisoning..... 220
Knight, H. F.: Auricular wave (P) of electro-cardiogram, clinical observations with especial reference to pulmonic and mitral stenoses 712
Koessler, K. K.: Antigenic property of pollens 751
Koontz, A. R.: When do lungs return to normal following exposure to war gases? 204

Lathrop, F. W.: Changes in heart rhythm associated with Cheyne-Stokes respiration; displacement of pacemaker to branches of bundle of His..... 229
Leukemia; relative values of cell morphology and peroxydase reaction as diagnostic aids 13
Leukocytes, identification of three types of mononuclear phagocytes in peripheral blood 799
Levine, S. A.: Beneficial effects of barium chlorid on Adams-Stokes disease..... 1
Lipemia and reticulo-endothelial apparatus.. 667
Lipoid partition in blood in health and in disease 507
Liu, S. H.: Hypoglycemia, report of case unassociated with insulin administration 146
Liver, cancer, functional tests in cases of carcinoma of liver and biliary tract.... 542
function tests, comparative study of certain tests for hepatic function in experimental obstructive jaundice..... 273
function tests, comparative study of certain tests for hepatic function in patients with obstructive jaundice..... 418
function tests, in cases of carcinoma of liver and biliary tract..... 542
function tests, survey of..... 248
Logan, A. H.: Etiology of chronic ulcerative colitis; experimental studies with suggestions for more rational form of treatment 818
Lugol's Solution, nutritional changes in exophthalmic goiter; effect of Lugol's solution 561

McConnell, W. J.: Basal metabolism as affected by atmospheric conditions..... 382
McGuire, P. F.: Vital capacity in Citizens' Military Training Camp..... 355
McIntosh, J. F.: Use of urea as diuretic in advanced heart failure..... 530
McJunkin, F. A.: Identification of three types of mononuclear phagocytes in peripheral blood..... 799
McVicar, C. S.: Diseases of liver; comparative study of certain tests for hepatic function in patients with obstructive jaundice 418
Diseases of liver; functional tests in carcinoma of liver and biliary tract... 542
Marcus, J. M.: Pancreatic function; quantitative determination of pancreatic enzymes 585
Marsh, P. L.: Renal injuries by amino-acids 682
Meek, W. J.: Effect of changes in position of heart on Q-R-S complex of electro-cardiogram 614
Metabolism, basal, as affected by atmospheric conditions 382
of obesity; distribution of energy production after food..... 397
Middleton, W. S.: Venous pulse pressure; clinical note 444
Mitral Stenosis, auricular wave (P) of electro-cardiogram, clinical observations with especial reference to pulmonic and mitral stenoses 712
Moschcowitz, E.: Acute febrile pleiochromic anemia with hyaline thrombosis of terminal arterioles and capillaries, undescribed disease 89

PAGE

Nadler, W. H.: Glycemia as guide in treatment of diabetes mellitus; practicability of routine examinations of small, effectively preserved specimens of blood drawn by patient..... 579
Nephritis, primary vascular, or renal periarteritis nodosa 189
Newburgh, L. H.: Renal injuries by amino-acids 682

Obesity, metabolism of, distribution of energy production after food..... 397
O'Leary, P. A.: Skin capillaries in scleroderma 73
Oppenheimer, B. S.: Lipemia and reticulo-endothelial apparatus 667
Oser, B. L.: Lipoid partition in blood in health and in disease..... 507

Pancreatic function; quantitative determination of pancreatic enzymes..... 585
Paramecia, effect of blood serums on, especially from patients with carcinoma.... 762
Paraphenylendiamin, action of; experimental study 724
Periarteritis, primary vascular nephritis, or renal periarteritis nodosa..... 189
Peroxydase Reaction, relative values of cell morphology and peroxydase reaction as diagnostic aids in leukemia..... 13
Peters, J. P.: Concentration of blood and of urine in diabetic toxemia..... 857
Phagocytes, identification of three types of mononuclear phagocytes in peripheral blood 799
Phenobarbital, effect of, on blood pressure in arterial hypertension; preliminary report 366
Pneumothorax, artificial, vital capacity in; mechanism and factors modifying vital capacity, with especial reference to its clinical and prognostic value in collapse therapy 94
Pollens, antigenic property of..... 751
Protein reaction, nonspecific..... 747
therapy, nonspecific desensitization therapy in allergic asthma; eosinophilic index as guide to intramuscular injection of venom protein 779
Pulsations, peripheral, in veins in congestive failure of heart, associated with pulsation of liver and tricuspid regurgitation 593
Pulse pressure, venous 444

Quinidin in treatment of auricular fibrillation, established, paroxysmal and transient 838

Rabinowitch, I. M.: Output of heart per beat in heart disease..... 239
Resnik, W. H.: Changes in heart rhythm associated with Cheyne-Stokes respiration; displacement of pacemaker to branches of bundle of His..... 229
Nature of so-called sino-auricular block.. 788
Respiration, Cheyne-Stokes, changes in heart rhythm associated with, displacement of pacemaker to branches of bundle of His 229
Reticulo-Endothelial apparatus, lipemia and. 667
Richter, M. N.: Leukemia, relative values of cell morphology and peroxydase reaction as diagnostic aids..... 13
Root, H. F.: Inulin and artichokes in treatment of diabetes..... 126
Rowntree, L. G.: Diseases of liver; comparative study of certain tests for hepatic function in experimental obstructive jaundice 273
Diseases of liver; comparative study of certain tests for hepatic function in patients with obstructive jaundice..... 418
Diseases of liver; functional tests in carcinoma of liver and biliary tract..... 542

St. George, A. V.: Value of icterus index in differentiating anemia..... 847

PAGE

Saunders, A. D.: Metabolism of obesity; distribution of energy production after food 397
Sarcoma, spindle cell, of heart..... 830
Scapular types, methods of recognizing, in the living 51
Schmitz, H. W.: Vital capacity, respiratory frequency, pulse rate and systolic blood pressure in heart disease, their importance in classification of patients. 628
Schram, D. L.: Diabetes; electrocardiographic studies 770
Scleroderma, skin capillaries in..... 73
Seibert, F. B.: Nonspecific protein reaction 747
Shackelford, H. H.: Effect of phenobarbital (luminal) on blood pressure in arterial hypertension; preliminary report..... 366
Smith, F. J.: Quinidin in treatment of auricular fibrillation, established, paroxysmal and transient..... 838
Snell, A. M.: Diseases of liver; comparative study of certain tests for hepatic function in experimental obstructive jaundice 273
Diseases of liver; survey of tests for hepatic function 248
Spangler, R. H.: Nonspecific desensitization therapy in allergic asthma; eosinophilic index as guide to intramuscular injection of venom protein..... 779
Spleen, roentgen-ray treatment of, in asthma bronchiale, preliminary report..... 743
Starr, P.: Glycemia as guide in treatment of diabetes mellitus; practicability of routine examinations of small, effectively preserved specimens of blood drawn by patient..... 579
Stifel, J. L.: Diameter of red blood cells in differentiation of anemias..... 874
Strouse, S.: Metabolism of obesity; distribution of energy production after food 397
Sturgis, C. C.: Nutritional changes in exophthalmic goiter; effect of Lugol's solution 561
Sutherland, K. H.: Systolic blood pressures in young men; including special study of those with hypertension..... 151

Tainter, M. L.: Blood and symptomatic changes following intravenous administration of variety of agents and solutions 447
Thatcher, H. S.: Spindle cell sarcoma of heart 830
Thompson, C. Q.: Defects of membranous bones, exophthalmos and diabetes insipidus 650
Thrombosis, hyaline, acute febrile pleiochromic anemia with hyaline thrombosis of terminal arterioles and capillaries; undescribed disease..... 89
Trichomonas intestinalis, pathogenicity of.. 174

PAGE

Tsuchiya, H.: Clinical diagnosis and intestinal flora 636
Pathogenicity of Trichomonas intestinalis 174
Tuberculosis, experimental, Dreyer's tubercle antigen; experiments showing failure of antigen to protect guinea-pigs against.. 121
Tukey, G.: Glycemia as guide in treatment of diabetes mellitus; practicability of routine examinations of small, effectively preserved specimens of blood drawn by patient 579
Tumors, action of oils in production of, with definition of cause of cancer..... 293

Urea as diuretic in advanced heart failure. 530
Urine, concentration of blood and of urine in diabetic toxemia..... 857

Vital Capacity in artificial pneumothorax, mechanism and factors modifying vital capacity, with especial reference to its clinical and prognostic value in collapse therapy 94
in Citizens' Military Training Camp.... 355
vital capacity, respiratory frequency, pulse rate and systolic blood pressure in heart disease, their importance in classification of patients..... 628

Waldbott, G. L.: Roentgen-ray treatment of spleen in asthma bronchiale, preliminary report 743
Walters, W.: Diseases of liver; comparative study of certain tests for hepatic function in patients with obstructive jaundice 418
Diseases of liver; functional tests in carcinoma of liver and biliary tract..... 542
Diseases of liver; survey of tests for hepatic function 248
Wang, C. C.: Metabolism of obesity; distribution of energy production after food 397
Warren, S. L.: Peripheral pulsations in veins in congestive failure of heart, associated with pulsation of liver and tricuspid regurgitation 593
White, P. D.: Auricular wave (P) of electro-cardiogram, clinical observations with especial reference to pulmonic and mitral stenoses 712
White, S. A.: Vital capacity in Citizens' Military Training Camp..... 355
Williamson, C. S.: Value of iron in anemia; experimental study..... 333
Wilson, A.: Effect of changes in position of heart on Q-R-S complex of electrocardiogram 614
Wolferth, C. C.: Intermittent auricular fibrillation with fleeting rapidly recurring paroxysms having identical type of auricular behavior..... 735

Yagloglou, C. P.: Basal metabolism as affected by atmospheric conditions..... 382
